Points to note regarding transport from the Hokkaido area

1. Electric vehicles are unlikely to be permitted on board, so we may have to refuse them.

3. Vehicles with significant damage to the bodywork, issues around the engine or suspension, or flat tyres, anything that impairs the vehicle's roadworthiness, are highly unlikely to be permitted on board the ship, and we may have to decline your request.

5. If your order is placed immediately before or after a medium- to long-term holiday period, the delivery time may be extended. Please also note that storage charges may apply within Hokkaido.

7. In the HOKKAIDO AREA, during the winter months when there is heavy snowfall, we do not accept the transport of cars that are not fitted with studless tyres.

2. Older vehicles may not be permitted on board the ferry, in which case we may be unable to accept your request.

4. If your vehicle's ground clearance is significantly too low or too high, you may not be permitted to board the ferry, or you may be charged a surcharge.

6. The Hokkaido region receives heavy snowfall every year. Consequently, delivery times may be extended depending on the weather. Furthermore, charges may be subject to change.

* Deliveries from HOKKAIDO AREA may be subject to delays due to various factors, so please allow plenty of time when making arrangements.

Points to note regarding transport from the TOHOKU area

1. Deliveries from AOMORI, IWATE, AKITA and YAMAGATA may take particularly long.
2. For transport from the TOHOKU AREA to the YOKOHAMA, KAWASAKI, NAGOYA, KANSAI, KISARAZU and HAKATA areas, we use ships; however, depending on the condition of the vehicle, it may not be possible to load it onto the vessel. In such cases, the entire journey will be by road, and the fare may be subject to change.
3. The TOHOKU AREA is a region characterised by numerous mountainous areas. Consequently, delivery times may be extended due to snow, rain or landslides.

* As the TOHOKU AREA is a region with limited transport capacity, we would be grateful if you could place your orders as early as possible.

Points to note regarding transport from the KITA KANTO area and KANTO area

1. Access from the KITA KANTO AREA to the various export yards is very poor, which may result in higher transport costs and longer transit times.
 2. For the USS TOKYO auction, the event takes place on a Thursday and the collection deadline is Sunday. As TRANSPORTER is closed on Sundays, collection is effectively only possible on Friday and Saturday. Therefore, we would ask customers to settle their auction payments as early as possible and to submit their requests to us at the earliest opportunity.
- * There are many popular auctions in the KITA KANTO AREA and KANTO AREA, which means we receive a large number of transport requests shortly after the auctions end. We therefore ask that you submit your requests as early as possible. Please note that we may have to decline requests if the volume exceeds the capacity of our contracted transporters. We appreciate your understanding.

Points to note regarding transport from the TOKAI area

1. The TOKAI AREA is an area where a large number of AUCTIONS are clustered within a small area. Consequently, the TRANSPORTERS responsible for this region operate on a tight schedule. As a result, they cannot afford to wait for payment from auctions or for confirmation when information provided by customers is incorrect. We would ask our customers to provide accurate information and to make payment for the auction at an early stage.
2. The SHIZUOKA AREA is situated halfway between the Kanto region and Nagoya. As a result, transporting goods to either location from this area involves both time and expense. Furthermore, the reality is that there are few transporters serving the Shizuoka area. We would therefore ask that you place your orders as early as possible.

* Please be aware that the TOKAI AREA is susceptible to the effects of meteorological phenomena and natural disasters such as typhoons and earthquakes.

Points to note regarding transport from the KINKI area

1.

MIRIVE OSAKA is an auction with a short timeframe between the start date and the PICK UP DEADLINE. Therefore, please ensure you place your orders and settle payment for the auction as early as possible.
2.

Please note that TAA KINKI has several satellite venues, so please take this into account when placing a bid.

* Please note that auctions in the KINKI AREA are extremely popular, and the deadline for booking transport may be reached at an early stage.

Points to note regarding transport from the KOSHINETSU area

1. At JU ISHIKAWA, you must provide the HANSHUTSUKEN issued by you on the website.
2. As there are very few TRANSPORTERs operating in FUKUI, YAMANASHI and NAGANO, we may have to decline your request. We would appreciate your understanding in advance.
3. As the KOSHINETSU AREA receives heavy snowfall during the winter months, we are unable to transport vehicles not fitted with winter tyres during this period.
4. The number of TRANSPORTERs serving the KOSHINETSU AREA has been declining in recent years. As a result, there is a limit to the number of vehicles we can transport. Furthermore, transport times tend to be longer.

* The KOSHINETSU AREA is predominantly mountainous and has very few main roads. It is an AREA that receives heavy snowfall, and as a result, transport is heavily dependent on the weather. Consequently, transit times are longer and freight charges are higher.

Approximate delivery times by region Regarding Delivery Dates	2 Week ~ 4 Week	2 Week ~ 3 Week	2 Week ~ 3 Week	2 Week ~ 4 Week	2 Week ~ 4 Week	2 Week ~ 4 Week

Points to note regarding transport from the CHUGOKU, SHIKOKU area

- As goods from the YAMAGUCHI AREA are transported by ship from the nearest port in FUKUOKA, the transit time is longer and the transport costs are higher.
 - There are many auctions in the CHUGOKU and SHIKOKU regions that are not listed in this price list. Please enquire on a case-by-case basis regarding transport from these auctions.
 - SHIKOKU AREA is a large island situated some distance from Honshu. Consequently, travelling to and from Shikoku inevitably requires crossing a major bridge or taking a ferry. As there are very few such major bridges and ferry services are infrequent, journey times are long and fares are high.
- * As there are no major ports for domestic or international shipping in the CHUGOKU and SHIKOKU AREA, transport times are particularly long and costs are higher when using sea routes. Furthermore, the distance to international shipping ports is considerable, which also contributes to higher costs.

Points to note regarding transport from the KYUSHU area

1. As there are several venues for USS, TAA and KCAA in the KYUSHU AREA, please check carefully before making your booking.
2. The transport routes from the KYUSHU AREA include several routes that involve the use of ships. Consequently, we may be unable to accept bookings for vehicles that cannot be loaded onto ships, or the fare may be higher.

* Please note that as auctions in the KYUSHU AREA are held in various locations across the vast KYUSHU AREA, transport costs to each destination may vary significantly.

Points to note regarding transport from the OKINAWA area

1. All transport from the OKINAWA AREA begins with loading onto a ship. We will be unable to accept requests for vehicles that cannot be loaded onto a ship.
2. Many of the auctions in the OKINAWA AREA are satellite venues for auctions held in other AREAs. Please check carefully before bidding.

*** The OKINAWA area is particularly susceptible to the effects of typhoons and other adverse weather conditions. Storage charges may apply if vessels are delayed due to bad weather. Furthermore, transport times may be extended as a result of bad weather. Please be aware of this in advance.**

Terms & Conditions for Vehicle Transportation

- * We only accept vehicles that can be safely loaded onto a standard vehicle carrier. Maximum guideline dimensions: Length: under 5.0 m / Width: under 1.95 m / Height: under 2.0 m / Gross Vehicle Weight: under 3,000 kg. Please contact us separately for trucks or other oversized vehicles.
- *Depending on the transportation route, a portion of the journey may require the vehicle to be SELF DRIVE.
- *Vehicles exceeding the above size guidelines, non-driveable vehicles, lowered vehicles, or vehicles requiring special handling are subject to a separate quotation.
- *We are not liable for damage caused by road debris (including stone chips) during transportation, or for mechanical failures resulting from normal wear and tear, age-related deterioration, structural defects, or pre-existing mechanical conditions.
- *We are not responsible for delays in vehicle pickup or delivery caused by traffic conditions, natural disasters, weather, ferry cancellations, or any other events beyond our reasonable control (force majeure).
- *Vehicles with a market value exceeding JPY 10,000,000 will generally be transported using a dedicated SINGLE CARRIER.
- *Vehicles with a market value exceeding JPY 8,000,000 may be subject to an additional transportation surcharge.
- *Payment for auction purchases must be completed by the morning of the first business day following the auction date. Transportation requests may be declined if payment is not completed by the required deadline. If the vehicle cannot be released due to unpaid auction fees, a cancellation fee equal to 100% of the transportation charge will apply.
- *For transportation routes requiring ferry services, we reserve the right to decline transportation depending on the condition or type of vehicle, including but not limited to: Electric vehicles (EVs), Damaged vehicles, Vehicles that are not in normal driving condition, Trucks carrying cargo, Very old vehicles
- *To ensure prompt and accurate transportation arrangements, please provide complete and accurate vehicle information, including: POS Number, Buyer (Successful Bidder) Name, Lot Number, Vehicle Condition, Auction Sheet (if available), Vehicle Photos (if available)
- *For arrangements involving yards other than our own, we base our calculations on the rates charged by representative yards in each region; however, yards where cargo handling takes a considerable amount of time, or where it is difficult for carrier trailers to enter or exit, will be excluded from the quoted rates.
- *Vehicles purchased through TAU, TGL, HANAMARU, or SOCOCARA auctions, as well as any vehicle marked "Invalid" "無効" on the auction sheet, will be treated as non-driveable vehicles and will require a separate quotation.
- *Transportation rates are subject to periodic revision and may be changed without prior notice.
- *All prices are quoted in Japanese Yen (JPY).
- *Consumption tax will be charged separately.
